

# PRESENCE OF THE LORD

SEU WORSHIP & JACOB LYNCH

## VERSE 1

We welcome in the Holy Spirit  
God, we say yes to what you're doing  
As we come to you with a heart of worship  
Seal it in us so we won't forget it

## PRE-CHORUS

I don't want to love You but not fear you  
Be in the room and not sit with you  
I don't wanna miss a single thing you do  
I don't want to love You but not hear you  
Receive a word that I don't submit to  
I'm not gonna miss a single thing you do

## CHORUS

The presence of the Lord is with me right now  
The glory of the Lord is falling right now  
I don't have to wait for you to come  
I don't have to strive for what is done  
The presence of the Lord is with me right now

## VERSE 2

Ready our hearts with an expectation  
Cuz you've come to meet and you set the table  
As you break the bread and we share communion  
May this be a glimpse of our great reunion

## PRE-CHORUS

I don't want to love You but not fear you  
Be in the room and not sit with you  
I don't wanna miss a single thing you do  
I don't want to love You but not hear you  
Receive a word that I don't submit to  
I'm not gonna miss a single thing you do

## CHORUS 2

The presence of the Lord is with me right now  
The glory of the Lord is falling right now  
I don't have to wait for you to come  
I don't have to strive for what is done  
The presence of the Lord is with me right now

## REFRAIN

You're with me right now  
Oh, oh, oh

You're with me right now  
Oh, oh, oh

## BRIDGE

I just wanna be here with you  
And stand in awe of  
How you speak and how you still move  
I just wanna be here with you  
And thank you that  
The more I seek the more I'll find you

## PRE-CHORUS

I don't want to love You but not fear you  
Be in the room and not sit with you  
I don't wanna miss a single thing you do  
I don't want to love You but not hear you  
Receive a word that I don't submit to  
I'm not gonna miss a single thing you do

## CHORUS

The presence of the Lord is with me right now  
The glory of the Lord is falling right now  
I don't have to wait for you to come  
I don't have to strive for what is done  
The presence of the Lord is with me right now

## REFRAIN

You're with me right now Oh, oh, oh
